

May 20, 2020

Dear Members

The staff have been working diligently to prepare the course for you and we are pleased to announce that we will be officially opening the course this Friday May 22nd, with the first tee-time being available at 10:00AM. For the balance of the month we will be open for reserving tee-time commencing at 7:30AM and the online booking will be available at the same time.

Prior to coming, you will need to familiarize yourself with the COVID-19 precautions recently announced by provincial officials. Details on our COVID-19 Operational Plan are on our website www.chestergolfclub.ca, the plan contains details on all of the precautionary measures that were introduced to ensure the safety our Members, Guests and our employees.

Our on-line booking and the Pro Shop telephone line will be open today at 3:00PM. To book an online tee-time you will need to have activated your Chronogolf account, if you need help with this please contact the Pro Shop. Please note reservations must be made prior to your arrival, the Pro Shop staff cannot take reservations in person.

When making your tee-time booking, we will require the names of all those in your group, you can add the names in the chronogolf booking page at the bottom where it says *leave a note for the Pro Shop*. If you require a power cart or pull cart, these will need to be reserved and paid for in advance as part of your reservation and you will see the additions/extras section in chronogolf for this purpose.

For the range, we hope to have it open early next week and usage will be by appointment only which can be arranged through the Pro Shop. You can pay by credit card or on your house account (if we have a credit card on file).

To use your Power Cart coupons, you will need to come through the Pro Shop and have a representative process these for you.

The Pro Shop will be open on a restricted basis meaning, only two customers will be permitted at a time. The Back-Shop area will not be open to the public and as noted in our recent communique, the Clubhouse will not be open at this time nor will there be a beverage cart operating.

A few information items concerning this phase of the easing of COVID-19 restrictions:

- Given the Clubhouse is closed, we recommend Members and Guests bring water to avoid dehydration.
- Washrooms will be operational for single occupancy use only; the lockers will not be accessible.
- Club storage and repairs will not be available during this phase.
- Any play before our 7:30AM tee-time will not be permitted

We recognize there are many changes being introduced to our procedures of play and we want to thank you in advance for your patience and understanding. We will do our utmost to ensure you have an enjoyable experience here at the Chester Golf Club.

If you have any questions or concerns, please contact the Pro Shop (902) 275-4543 or send an email to the Club at inquire@chestergolfclub.ca.

The Management,
Chester Golf Club
