

Chester Golf Club- AGM- House Report- August 25, 2021

The house committee is very small...just me at this point. Anyone interested in joining my committee are urged to contact me. New ideas are always welcome.

1. In July, new ramps were installed between the clubhouse building and proshop and, in front of the starters hut. This work helps eliminate the odd angles and improves safety in those areas.
2. The pop machines have been moved to new locations.
4. New garbage cans have been built and the area around the kitchen entrance area refurbished.
5. Small carpentry jobs and refurbishments have been completed improving esthetics around the clubhouse and proshop. Remains of stump in front of the Clubhouse has been removed.
6. Planters, window boxes and baskets of flowers have been added to the entrance garden and around various buildings.
7. Area around the flagpole has been refurbished.
8. The sound system in the dining room has been updated and quality has been enhanced.
9. A new clock has been installed on the starters hut.

Respectfully submitted,

Cathy Rafuse, House Chair
